# TARGETTING A NEW MARKET

We are targeting the PC/Console market that represents 50% of the gaming market or \$36 B annually

## PHONE MARKET

### ■ All The Other Gamefi/Metaverse Projects

Everyone wants to make quick small projects. Doing a AAA game is a challenge that only a few can face. Gamers have no interest in projects looking like 30 years old and with poor gameplay and no innovation.

## PC/CON MARKET

### ■ Metaisland is heading in that direction
